

# XVI International Symposium on Human-Induced Vibrations and Seismic Influences on Structures

15-18 May 2024, Krakow, Poland

On behalf of the Organizing Committee, it is a great pleasure for us to invite you to the

## ***16th International Symposium on Human-Induced Vibrations and Seismic Influences on Structures***

to be held in Krakow  
at the Cracow University of Technology (Poland)  
on **15-18 May 2024**

For the first time, in cooperation with [Extrica](#),  
our conference will take place in a **hybrid mode**.

In addition, we are pleased to inform you that the best papers will be submitted to the  
[MDPI Topic Materials Science and Engineering in Vibrations and Seismicity](#)  
created especially for our Symposium.

The Symposium is intended to bring together academic researchers and civil engineering specialists to present and discuss theoretical and experimental methods of analyses of the dynamic issues of civil engineering structures.

We strongly believe that our symposium will be an opportunity for many interesting discussions and will facilitate collaboration among participants!

Some of the problems considered to be of interest for the Symposium are:

- ✓ Natural and Human-Induced Seismicity
- ✓ Traffic-Induced Vibrations
- ✓ Seismic performance of civil engineering #structures
- ✓ Advances in Dynamic Experimental Techniques
- ✓ Advances in Computational Dynamics of Structures
- ✓ Dynamic Testing and Monitoring of Historic Structures
  - ✓ Bridge Dynamics
- ✓ Structural Health Monitoring (SHM)
  - ✓ Mining Geophysics

For more information, please visit our website: [www.sympozjum-wsip.pk.edu.pl](http://www.sympozjum-wsip.pk.edu.pl)  
or feel free to contact us via email: [symposium.hivib@pk.edu.pl](mailto:symposium.hivib@pk.edu.pl)

Looking to see you in Krakow!
